

GAGE AND MEASURING SYSTEMS

Sales, Repair, Design, Build, Calibration and Certification of Dimensional Gages.

SALES

Mahar has expert knowledge in all aspects of precision dimensional gaging supply, including GO/NOGO attribute rings, plugs, threads and hex gages. Mahar can also provide variable data custom design and build gaging systems from concept to finished product based on your part specifications.

REPAIRS

Providing quality repairs for Micrometers, Calipers, Height Gages, Indicators, Lapping and more.

CALIBRATION

Performed by ISO 17025 accredited labs that specialize in calibration of the following: Gage Blocks, Plug Gages, Rings, Thread Wires, custom blue print gages and other linear dimensional gages.

ON-SITE CALIBRATION SERVICE

Mahar coordinates and schedules on-site calibration of surface plates, optical comparators, micrometers, visual gages, laser micrometers, vision inspection systems and precision metrology tools.

CONSULTATION

Providing your company with unsurpassed knowledge in gage selection and training needs.
