

TECHNICAL SERVICES

Training, troubleshooting and engineering services.

TOOLING APPLICATION SPECIALISTS

Mahar specializes in the analysis of your machining processes. Our specialists can troubleshoot your areas of loss with the goal of increasing throughput, reducing your cost to manufacture and increasing manufacturing efficiencies.

TEST TOOLING

Mahar introduces modern technologies to significantly improve cycle time and generate cost savings.

PRE-SET/CUTTER GRIND

Mahar has expert tooling pre-setters and cutter grinders on staff to respond quickly to your needs.

GAGE ROOM

Mahar has gage experts that can help you solve gage related issues from repair to calibration to certification.

TECHNICAL TRAINING

Mahar provides training in machining practices, principles, speeds/feeds, etc. Training can be tailored to meet your specific needs.
